NEBRASKA -- RANK IN AGRICULTURE

RANK:

1st	Alfalfa meal production, 1986. Tons -- 335,000.
1st	Great Northern beans production, 1985. Cwt. -- 1,356,000.
2nd	Cash receipts from cattle and calves, 1985. $3,327,828,000.
2nd	Fed cattle and calves marketed, 1985. Number -- 4,600,000.
2nd	All cattle and calves, January 1, 1986. Number -- 5,800,000.
2nd	Cattle on feed, January 1, 1986. Number -- 1,900,000.
2nd	Sorghum silage production, 1985. Tons -- 805,000.
2nd	Commercial livestock slaughter, all species, 1985. Thousand lbs. -- 7,474,077.
3rd	Cash receipts from all livestock marketings, 1985. $4,573,[illegible]000.
3rd	Commercial cattle slaughter, 1985. Number -- 5,606,100.
3rd	Commercial cattle slaughter (live weight), 1985. Thousand lbs. -- 6,308,[illegible]
3rd	Commercial red meat production, 1985. Thousand lbs. -- 4,607,729.
3rd	Sorghum grain production, 1985. Bushels -- 153,600,000.
3rd	Corn for grain production, 1985. Bushels -- 953,600,000.
3rd	Cash receipts from corn, 1984. $1,344,180,000.
3rd	Cash receipts from sorghum grain, 1984. $191,220,000.
3rd	Pinto beans production, 1985. Cwt. -- 990,000.
4th	Value of all cattle and calves on farms, January 1, 1986 -- $2,291,000,000.
4th	Beef cows and heifers that have calved, January 1, 1986. Number -- 1,738,000.
4th	Small white beans production, 1985. Cwt. -- 90,000.
4th	Land in farms and ranches, 1985. Acres -- 47,200,000.
4th	Cash receipts from farm marketings, 1985. $7,918,044,000.
4th	Value of all hogs and pigs on farms, December 1, 1985 -- $[illegible]88,600,000.
4th	Commercial hog slaughter, 1985. Number -- 5,052,000.
5th	Capacity of commercial grain storage facilities, January 1, 1986. Bushels -- 692,050,000.
5th	All dry edible beans production, 1985. Cwt. -- 2,701,000.
5th	Calves born, 1985. Number -- 1,750,000.
5th	All hogs and pigs, December 1, 1985. Number -- 3,900,000.
5th	Pigs saved, 1985. Number -- 5,859,000.
5th	Rye production, 1985. Bushels -- 1,242,000.
6th	Cash receipts from hogs and pigs, 1985. $560,094,000.
6th	Corn silage production, 1985. Tons -- 4,950,000.
6th	Alfalfa hay production, 1985. Tons -- 4,760,000.
6th	Value of principal crops produced, 1985. $3,707,574,000.
6th	Sugar beets production, 1985. Tons -- 1,229,000.
6th	Cash receipts from sugar beets, 1984. $54,025,000.
6th	Winter wheat production, 1985. Bushels -- 89,700,000.
7th	Harvested acreage, principal crops, 1985. Acres -- 18,544,000.
7th	All hay production, 1985. Tons -- 6,755,000.
7th	Cash receipts from crops, 1985. $3,344,676,000.
7th	Value of farm real estate, 1985. $20,964,000,000.
8th	Soybean production, 1985. Bushels -- 84,960,000.
8th	Oats production, 1985. Bushels -- 22,800,000.
9th	All wheat production, 1985. Bushels -- 89,700,000.
9th	Cash receipts from soybeans, 1984. $443,845,000.
9th	All other hay (includes wild) production, 1985. Tons -- 1,995,000.
9th	Sheep and lambs on feed, January 1, 1986. Number -- 65,000.
10th	Cash receipts from wheat, 1984. $341,417,000.
14th	Cash receipts from sheep and lambs, 1985. $11,325,000.
17th	All potato production, 1985. Cwt. -- 2,873,000.
17th	Barley production, 1985. Bushels -- 3,840,000.
17th	Wool production, 1985. Pounds -- 1,415,000.
17th	Value of wool production, 1985. $693,000.
17th	All sheep and lambs, January 1, 1986. Number -- 160,000.
20th	Turkeys, pounds produced, 1985. Pounds -- 15,725,000.
23rd	Turkeys raised, 1985. Number -- 850,000.
23rd	Eggs produced, Dec. 1, 1984-Nov. 30, 1985. Number -- 844,000,000.
24th	Value of all chickens on hand December 1, 1985. $8,933,000.
25th	All chickens, December 1, 1985. Number -- 3,970,000.

PREFACE

Information in this statistical summary of Nebraska agriculture is the result of thousands of voluntary reports from farmers, ranchers and agribusiness firms. Much of the detail needed for county estimates was collected from farmers and ranchers by mail with the Annual Agricultural Survey and acreage and livestock surveys. County extension staff, local lending institutions and the National Weather Service have also contributed through weekly reports on weather and crops. The excellent cooperation from all the above mentioned and other State, University and USDA agencies is very much appreciated.

The Nebraska Department of Agriculture and the United States Department of Agriculture cooperate in collecting and compiling these agricultural statistics. Under this cooperative agreement, the Nebraska Agricultural Statistics Service (formerly the Nebraska Crop and Livestock Reporting Service) publishes over 100 statistical reports annually covering most Nebraska agricultural commodities.

Livestock and number of farms estimates were prepared by Dennis Johnson. Crop estimates were prepared by Marv Anderson, Scott Keller, Rick Geesey and Greg Johnson. Dan Capstick was responsible for poultry and price estimates. Mike Pallesen and Mark Schleusener were responsible for much of the survey data collection activity. Computer programming and system design work of David Mueller played an important role in processing regular monthly reports and other State Department of Agriculture activities. Bill Dobbs supervised the technical staff, reviewed estimates and book contents.

The organization and tabular material were prepared by Mrs. Charlotte Rowe, who also coordinated the typing, assembling, proofreading and checking of this book. Many other hours of statistical computation and verification work were accomplished by the clerical staff.

This publication provides Nebraska county, crop reporting district and State data on selected agricultural items most used by agricultural data users. Selected data are also shown for the U.S. and special State groupings.

For 1985, county estimates for most crops are provided. However, only crop reporting district estimates for wild and other tame hays, irrigation, number of farms and all livestock are provided due to a reduction in State funds for agricultural statistics. All 1985 estimates are preliminary and subject to revision. Revised 1984 crop county estimates for Nebraska's four major grain crops are published in this publication, while all other revised county crop and livestock estimates are available upon request.

To request current reports issued during the year or copies of this report write Charles P. Schroeder, Director, Nebraska Department of Agriculture, 4th Floor 301 Centennial Mall South, P.O. Box 94947, Lincoln, Nebraska 68509, or Jack Aschwege, State Statistician, P.O. Box 81069, Lincoln, Nebraska 68501.

STATISTICAL METHODS

GENERAL

The Nebraska Agricultural Statistics Service has two primary objectives:

1. To develop accurate, reliable agricultural statistics.
2. To move those statistics to users as rapidly as possible.

Data collection to achieve these objectives involves sample surveys of farmers and ranchers, grain companies and elevators, auctions, packing plants, retail stores, and many other agricultural enterprises.

From data reported by these many sources, statisticians, using all available statistical tools, generate State totals forming official State and USDA estimates. Cooperation of USDA and the Nebraska Department of Agriculture provides resources for breaking State totals into crop reporting districts and counties.

Analysis and interpretation of these basic statistics are performed by others, such as University of Nebraska Extension Specialists, private economists, and the producer. Our role is to provide basic data and every effort within available resources is made to provide accurate and timely information. This process begins with survey design and continues through data collection, summarization, analysis and finally the release of each crop and livestock statistic.

STATE ESTIMATES

The U.S. Department of Agriculture is required by law to provide National crop and livestock statistics for each major producing State.

For many years and to a considerable extent today, mailed non-probability surveys served as the backbone of data gathering. However, probability sampling, a more sophisticated sampling procedure, is being incorporated as funds and applied technology allow. Some types of probability sampling used in Nebraska are Area Frame Sampling, List Frame Sampling, and Multiple Frame Sampling. Sampling farm operators in a specifically outlined geographic area is known as Area Frame Sampling, while sampling a list of all known producers of a specific commodity is known as List Frame Sampling. A technique called Multiple Frame Sampling takes advantage of the attributes of both the Area and List samples. Area Frame Sampling is used in Nebraska for most acreage and livestock items and Multiple Frame Sampling is used for estimating livestock and grain stocks inventories.

The concept of probability sampling is maintained in all three types of sampling. Data collection for the probability surveys involves personal enumeration and telephone or personal followup for all non-respondents to mail questionnaires. These probability surveys are expensive on a per sampling unit basis but yield State results that have greater precision and allow measurement of the sampling error.

Nebraska's major crops (corn, soybeans, wheat and sorghum) are measured by objective yield procedures. Forecasts before harvest incorporate plant counts, kernel and head counts and weight. Sample fields are entered with permission of growers, by enumerators from May through October to take counts and measurements during the growing season. After harvest, gleaning provides estimated harvesting loss. Monthly crop reporters give dependable mail survey yield indications during the season.

COUNTY ESTIMATES

Federal appropriations and regulations support State estimates for specific agricultural items that are important in National totals and some county level estimates. When additional items or geographic descriptions within States are needed, supplemental funding is required. To provide estimates by county, for example, requires a much larger sample because each county must have enough reports to provide a sound basis for estimates. Our acreage surveys and Annual Agricultural Survey give every operator a chance to report annually and provides a solid basis for county estimates.

CHECK DATA

In addition to producer surveys, check data are collected from the marketing channels, county extension agents, ASCS, etc., to verify or supplement the grower survey data. These data become available -- usually long after harvest and are used to establish final production and marketing figures.

The final estimate is arrived at when all grower survey data and marketing data (check data such as: handler or processor receipts, slaughter, and market shipments) have been analyzed. These data then become the statistical history against which current forecasts and estimates are viewed.

NEBRASKA
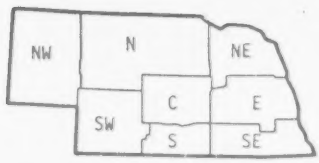
1985 FARM FINANCE SURVEY SUMMARY



NEBRASKA
AGRICULTURAL
STATISTICS
SERVICE
P.O. Box 81069
Lincoln, NE 68501
Phone: (402) 471-5541

Released: March 3, 1986

BACKGROUND

Nebraska is one of nine Midwest States that conducted a farm finance survey in January 1986. The surveys were coordinated by the Midwest Association of State Departments of Agriculture and conducted through the individual State Agricultural Statisticians in order to provide comparable results and information that could be used for development of state and regional policies and programs. Survey sampling and tabulation procedures were comparable among the nine states. Nebraska's survey was funded through a coordinated effort of the Nebraska Department of Agriculture and the Greater Nebraska Job Training Program.

ABOUT THE SURVEY

In Nebraska, questionnaires were mailed December 30 to a sample of 2,000 farm and ranch operators. Each selected operator was sent a questionnaire and asked to complete and return it by January 13. Those not returning a mailed questionnaire were contacted by telephone until January 31. Only those who operated a farm in 1985 and could provide complete financial records were summarized. Non-operator landowners were excluded from this survey. A total of 683 complete reports was tabulated. The usable survey response rate of 34% was evenly distributed across the State. For comparison purposes, an estimate of farms by Crop Reporting District is shown as of June 1985. All other published data are based on survey results. Special appreciation is extended to all respondents, especially considering the questionnaire complexity and the sensitive nature of the many questions.

DEFINITIONS

The debt-to-asset ratio is generally considered as a primary measure of whether a farm will have cash flow difficulties. The debt-to-asset ratio is the total of all debts divided by the current value of all assets.

As a general rule, farmers with debt-to-asset ratios below 40 may not have serious financial problems. Those with a ratio between 40 and 69 are feeling financial stress and those with 70 and above are apt to have severe financial problems.

NET INCOME FROM FARMING is gross sales of agricultural products minus total expenses. No attempt was made to measure depreciation costs in this survey.

OFF-FARM INCOME is earnings derived by family members from sources other than their own farming operation.

HIGHLIGHTS OF SURVEY RESULTS

* The average debt-to-asset ratio of all farms in the survey was 34.3 percent. Approximately 19.3 percent had no debt; 63.2 percent had a debt-to-asset ratio of less than 40; 23.0 percent had a ratio of 40-69 and 13.8 percent were in the 70 and above category.

* The highest debt-to-asset ratios were for those farming in the Central and Southeast Crop Reporting Districts.

* About 6.4 percent of the current operators in the survey did not expect to farm in 1986 and 15.8% would not operate in 1987, if conditions did not improve.

* The average farm had gross sales of $117,921 and production expenses of $98,209 with a net farm income of $19,712. Off-farm income averaged $6,548. Total income was $26,260.

* Total debt per farm averaged $146,128 with $80,134 being real estate debt and $65,994 being all other debt.

* Total assets per farm averaged $426,613 with $241,274 being real estate assets and $185,339 being all other assets.

* Interest paid per farm was $15,827 and accounted for 16.1 percent of total expenditures.

* Of farmers with real estate debt, 91.8 percent were current on interest and principal payments. For debts other than real estate, 90.3 percent were current on interest and principal.

* Community services were considered adequate by the following percent of respondents: financial planning, 71%; legal counseling, 66%; emotional counseling, 51%; and crop diversification information 70%.

MIDWEST REGIONAL RESULTS

This report presents the basic picture of the current financial profile of Nebraska farmers and provides a debt-to-asset ratio comparison for the nine Midwest States. A publication summarizing data for all states will be available by April 3, 1986.

DEBT-TO-ASSET RATIOS AND PERCENT NOT PLANNING TO CONTINUE OPERATING IN 1986
9 STATES -- JANUARY 1, 1986

State	Average Debt/Asset Ratio	Operators with Debt/Asset Ratio			Not Planning to Operate in 1986
		Less Than 40%	Between 40 and 69%	More Than 69%

NEBRASKA RELEASE SUBSCRIPTION REQUEST FORM(S)

To receive any of these reports, please check the boxes and return free or for pay form to the Nebraska Agricultural Statistics Office, P.O. Box 81069, Lincoln, Nebraska 68501.

NOTE: Free distribution of releases is limited to only individuals and firms providing information on surveys made from this office. Others wishing to receive these releases may obtain them by paid subscription--see "For Pay" Subscription Request (over). To help us in classifying our subscribers, please check one of the following that best describes your operation:

☐ Farm or ranch operator; ☐ Landlord only; ☐ Agri-Business;
☐ Education; ☐ Government; ☐ Other - specify _____

PLEASE CHECK THE RELEASES YOU'D LIKE TO RECEIVE . . .

( ) 900 NEBRASKA AGRI-FACTS *(24 issues)*

Issued twice monthly, highlights monthly agricultural prices and various crop and livestock forecasts and estimates from reports issued by the Nebraska Agricultural Statistics Service and related subjects covering Nebraska and U.S. agriculture.

( ) 901 NEBRASKA CROP-WEATHER *(36 issues)*

Issued Monday (weekly Apr.-Nov.), (monthly Dec. - Mar.); covers progress of crops and livestock conditions, temperatures, precipitation, and soil moisture conditions within Nebraska.

ANNUAL RELEASE

( ) 914 ANNUAL COUNTY ESTIMATES

Preliminary crop county estimates and livestock crop reporting district estimates for the past year. Irrigated and nonirrigated crop production estimates and annual crop, livestock and price summaries. Issued June.

COMMODITY RELEASES

Contain more detailed information than provided in NEBRASKA AGRI-FACTS.

( ) 902 NEBRASKA CROPS *(12 issues)*

Issued prior to mid-month covering details of major crop reports. Includes Nebraska and U.S. crop yield and production forecasts; district yield and production estimates for major crops; grain stocks; U.S. crop supply and disappearance estimates.

( ) 903 NEBRASKA LIVESTOCK *(12 issues)*

Issued late in month covering details of major livestock reports. Includes monthly cattle on feed, livestock slaughter, milk and egg production and periodic reports on cattle, hog and sheep inventories, livestock prices and dairy products.

NOTE: *Please enter your complete name, address, telephone number & social security number to assure delivery of your releases.*

DISTRIBUTION & SOURCE OF NEBRASKA AGRICULTURAL STATISTICAL DATA

Reports on many commodities are available free to individuals and firms that may be asked to provide information on surveys made by the Nebraska Agricultural Statistics Service (formerly the Nebraska Crop and Livestock Reporting Service). Others may receive the reports on a paid subscription basis. Timely summaries of all major reports are provided the news media, radio and TV stations, and educational establishments to serve Nebraska farmers, ranchers, and others with agri-business interests. The title of current reports covering Nebraska and national agricultural estimates, month of publication, and source of data used to obtain the estimates are shown in this table.

CURRENT REPORTS

Commodity	Publication month of report	Source of data for estimates
CROPS:		
Winter wheat seedings	January	Farm & ranch operators
Prospective spring plantings	March	Farm & ranch operators
Acreage forecasts	June	Farm & ranch operators
Yield & production forecasts	Monthly during growing season	Farm & ranch operators & field measurements 1/
Annual small grain summary	October	Farm & ranch operators
Annual row crop summary	January	Farm & ranch operators
Stocks of grain (farm & off-farm)	Jan., March, June, Sept.	Farm operators & mills & elevators
Weather - crop	3 P.M. Monday--April thru Nov. Monthly--December thru March	County Extension Agents, Lending Institutions, Vo Ag Instructors & National Weather Service
Wheat varieties	February	Farm & ranch operators
LIVESTOCK:		
Cattle inventory & calf crop	January	Farm & ranch operators
Sheep inventory	January	Farm & ranch operators
Hog inventory & pig crop	March, June, Sept., Dec.	Farm & ranch operators
Cattle on feed	Monthly	Farm & ranch operators
Commercial slaughter	Monthly	Livestock slaughter plants
Cold storage	Monthly	Commodity warehouses
Annual livestock production	April	Farm & ranch operators
POULTRY:		
Chicken inventory	February	Farm & ranch operators & hatcheries
Turkey inventory	January	Farm & ranch operators & hatcheries
Egg production	Dec., March, June, Sept.	Farm & ranch operators & commercial egg producers
Poultry production	April	Farm & ranch operators & hatcheries
MILK:		
Milk production	Jan., April, July, Oct.	Milk producers
Dairy products manufactured	June	Milk product manufacturers
PRICES & INCOME:		
Prices received by farmers	Monthly	Farm product buyers
Prices paid by farmers	Monthly	Merchants
Farm income	September	Farm & ranch operators
FARM EMPLOYMENT & FARM NUMBERS:		
Employment on farms & farm wage rates	April, July, October	Farm & ranch operators
Farm numbers	August	Farm & ranch operators

1/ Counts and measurements from small plots at monthly intervals prior to maturity. Harvested samples of mature grain and soybeans receive detailed laboratory analysis.

SPECIAL REPORTS PROVIDING NEBRASKA STATISTICS

Reports	Publication month of report	Source of data for estimates
Annual county estimates	June	Farm operators, agri-business, USDA, & Nebraska Department of Agriculture
Commercial fertilizer sales	May	Neb. Dept. of Ag., Bureau of Plant Industry & fertilizer manufacturers
1985 Farm Finance Survey	March 1986	Farm & ranch operators
